PROFESSIONAL SUMMARY

CCNA-certified IT Support Technician with 4 years of progressive experience delivering PC diagnostics, custom workstation builds, and IT infrastructure deployments. Promoted three times over 4 continuous years at Grand Infotech by consistently resolving daily helpdesk tickets and automating software setups using AI-scripting. Transitioned to field operations at Wings IT Solutions to physically deploy IP CCTV systems and structured cabling. Verified credentials in hand; available for immediate onboarding across the UAE.

CORE COMPETENCIES

- **Systems & OS:** Desktop Diagnostics, Custom PC Assembly, Thermal Servicing, OS Troubleshooting.
- **Networking:** Router/Switch Setup, LAN Troubleshooting, DHCP/DNS, Patch Panel Punch-Down.
- **Service Desk:** Ticket Management, Customer Communication, Remote Support (AnyDesk).
- **Directory Services:** Basic Active Directory (User Creation, Password Resets, Domain Join).

PROFESSIONAL EXPERIENCE

WINGS IT SOLUTIONS — Kerala, India

IT Infrastructure Support Assistant | Jun 2026 – Aug 2026

- Mounted IP cameras and pulled Cat6 Ethernet cables across commercial sites to establish wired connectivity for a new small office setup.
- Terminated RJ45 connectors and punched down cables into patch panels (T568B standard), linking all desk positions to a central Gigabit switch.
- Configured static IP addresses on IP cameras using the SADP discovery tool, assisting the lead engineer in finalizing a shared printer and Wi-Fi access points.

L-ONE CHIP LEVEL SOLUTIONS — Kerala, India

Laptop Technician (Practical Training) | Apr 2026 – May 2026

- Repaired component faults across Dell, HP, Lenovo, and ASUS systems, specifically replacing DC power jacks, degraded batteries, and LCD ribbon cables.
- Executed DDR4/DDR5 RAM upgrades and NVMe M.2 SSD replacements, followed by clean Windows 10/11 installations and component burn-in testing.

GRAND INFOTECH — Kerala, India (4 Years Continuous Service, 3 Formal Promotions)

IT Support Lead & Service Coordinator | Jan 2025 – Apr 2026

- Managed repair job intake and coordinated 3 junior technicians via the Dev Soft ticketing system, maintaining delivery timelines for 30+ weekly tickets.
- Built 'Helios Pro', an AI-assisted (ChatGPT/Gemini) WhatsApp tracking tool that automated customer status notifications and reduced manual follow-up calls.

Senior IT Support Technician | 2023 – 2025

- Deployed a 10-PC workstation fleet over a single weekend for an accounting firm, provisioning business software and setting up shared folders without disrupting Monday operations.
- Generated 'Nexus Prime', an AI-assisted PowerShell/WinGet automation script, deploying standard applications on 20+ real client machines to reduce setup time from 40 minutes to under 10.
- Diagnosed daily desktop/laptop issues, resolving faults ranging from screen/keyboard replacements to virus removal.

IT Support Technician | 2022 – 2023

- Assembled and bench-tested custom desktop PCs (including high-end i9/128GB builds) for commercial clients, handling BIOS configuration and OS partitioning.
- Configured network printers and basic LAN routing for small businesses, providing walk-in and on-site technical support.
